1996 MORGAN 4/4

I was fortunate enough to be able to purchase a Morgan from the Classic and Sportscar Centre at Malton. I placed a deposit in April at the very beginning of the lockdown and James Szkiler from the company was extremely helpful throughout the process. He provided pictures by

email from all angles of the vehicle, including detailed images of the underside, which would normally only be achieved by a physical inspection in-person.

'My original plan was to wait until the lockdown eased sufficiently to enable me to travel to Malton to collect the vehicle. By the beginning of May, James had managed to get the vehicle into his workshop for PDI and MoT. I was then sent a video of the vehicle on a road test with a commentary and the following week James called

me asking how far was I from Denbigh, as he was delivering another vehicle to a restorer there.

'On May 7 the vehicle was delivered to my home on a car transporter, but prior to that I was sent a detailed hand-over video showing how everything operated on the vehicle – the hood, radio and so on.

'I cannot thank James enough for all his help and assistance throughout the process, despite the difficult times we are all living through these days.'
