# REVIVAL COURSE CAR UP FOR GRABS

The Classic and Sportscar Centre in Malton, North Yorkshire, is selling the 1963 Jaguar Mk2 3.8 that was chosen as this year's Goodwood Revival course car at £49,995. It was used on the track between races for members of the BARC and the Clerk of the Circuit.

Classic and Sportscar Centre CEO James Szkiler told CCW: 'Last year the team at Goodwood asked if we had a suitable pre-1966 safety car for the Revival. We had just taken in a subtly upgraded Jaguar E-Type S1 4.2 FHC finished in Opalescent Green – a perfect candidate. It was put through its paces for the weekend; it wasn't a race-prepared car but it was quick and looked fantastic on the track.'

'Having been involved trackside last year, we were invited again this year, this time to bring a course car for the use of BARC members and the clerk of the circuit between races. Our stunning ex-Beachams-owned Jaguar MK2 was chosen and offered a comfortable, very period car and performed faultlessly all weekend.'

'A beautifully presented older restoration that was re-built to an exceptionally high standard and featuring various upgrades, it's the ideal overall package for regular use and long distance touring.'
